

GREENTREETM SCROG

REVOLUTIONIZING THE WAY, YOU GROW CANNABIS!

CHANGE THE GAME

AND DOMINATE THE FIELD

An innovative industry requires innovative thinkers.

Who we are

We designed and patented a solution to a global Cannabis Cultivation problem.

We are driven to eliminate the usage of synthetic netting in the cultivation of cannabis operations.

We intend to service a worldwide marketplace for commercial and retail cannabis growers within 24 months.

VISION & MISSION

To eliminate the antiquated practice of trellising cannabis plants with synthetic netting, by introducing our modernized scrogging system.

Our mission is substantial; we intend to eliminate the antiquated practice of trellising cannabis plants with synthetic netting, by leading a movement to modernize trellising systems.

We are offering cultivators a new Green Standard of Excellence to enhance their operating procedures.

DIRTY HANDS

We identified a reoccurring problem robbing us of time and resources, and unfortunately, it repeats itself across the cannabis industry time and time again.

We solved the problems we encountered during our harvest seasons, and we will do the same for thousands of growers no matter the size!

Easy Scrog Benefits

Thousands of pounds of plastic waste that's discarded from our industry become hazards to wildlife and add to landfills.

Simplifies Management

Effortless To Erect And Remove

Reduces Labor Cost

Eliminates Waste

Permanent Solution

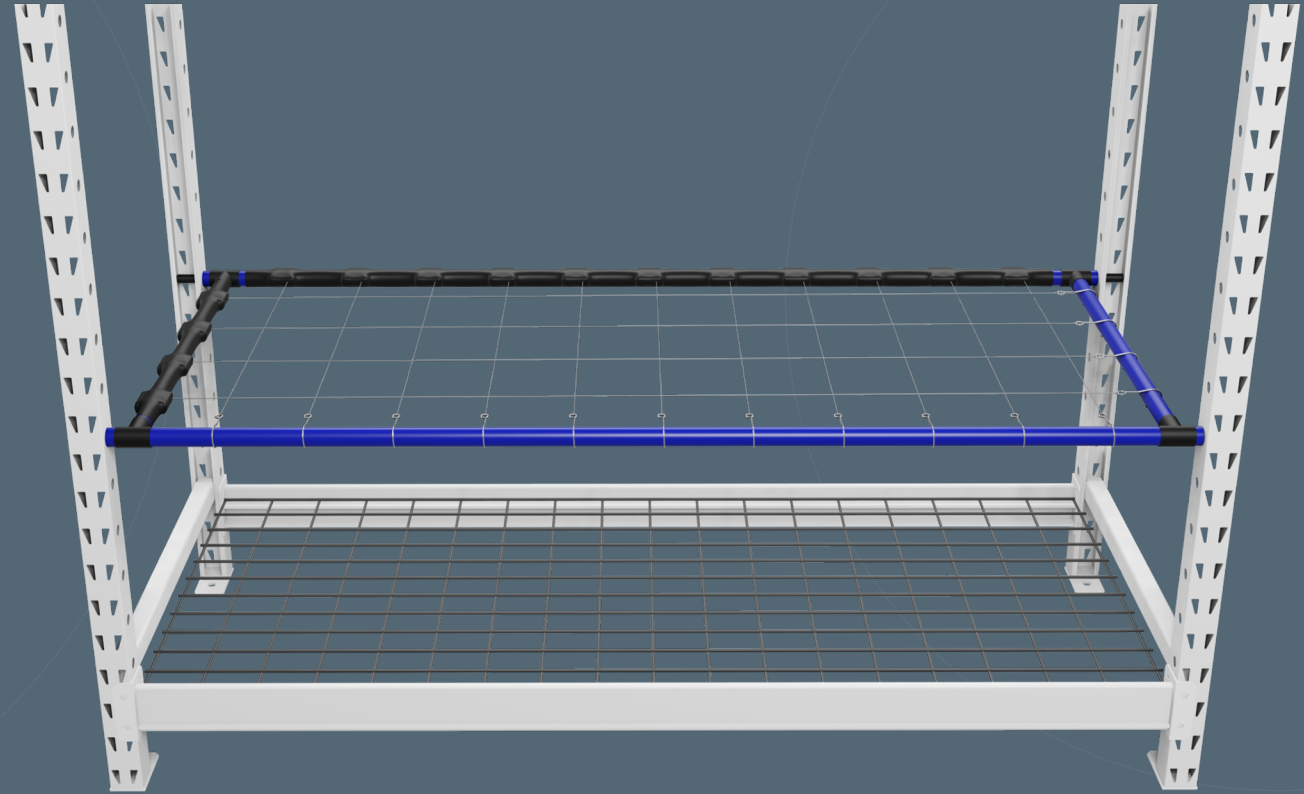

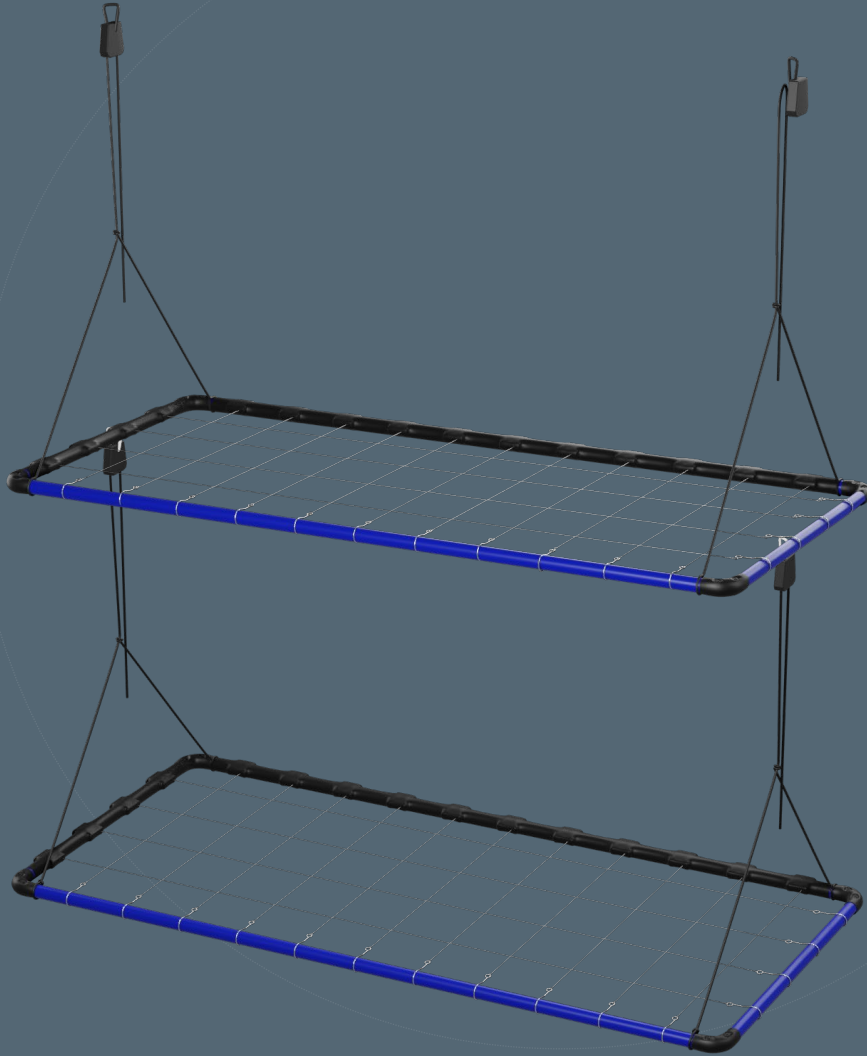

Customizable To Fit Into Any Operation

ENGINEERED SOLUTIONS
